(54) Title: **LUMINAIRE WITH LAMBELLAS, FOR TUBULAR LAMP**

(57) Abstract: The invention is related to a luminaire for housing a tubular lamp (4). According to the invention the luminaire has a housing with a light emission window (2), means for accommodating a tubular lamp in it along the window (2) and in a plane P perpendicular to said window (2), side reflectors (5), and lamellae (10) positioned between the reflectors (5) and transverse to the emission window (2). The lamellae (10) having an outer edge (11), which is diverging from an inner edge (12) from the plane P towards points A and A' on either side of the plane P. From the point A, A' the outer edge (11) extends towards the nearby side reflector enclosing at point A an angle with the emission window (2) and directed towards the said side reflector (5).

## \* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

- \*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \*Z\* document member of the same patent family
